IRIS-VISION C-SCAN & TUBE MAPPING

Accurate Inspection of heat exchangers has become an economic and environmental necessity. No one method does it all - but there is one company that does:

Founded in 1985, Iris Inspection Services, Inc is the leading supplier of heat exchanger inspection services.

We manufacture the IRIS 9000 instrument which provides the greatest accuracy and repeatability in the industry.

We can provide the right service for your application. As well as IRIS, we offer Eddy Current, Remote Field, and Magnetic Flux Leakage testing. Our tube mapping software enables same day on-site reporting.

With our many years of experience, the most in the industry, you can rely on us to help you choose the best method for your inspection needs.
